

THE FUTURE IS TODAY

Make the switch and experience

BRIGHTNESS of a new

DIMENSION!

WHY MK-DENT PREMIUM LED?

USER-FRIENDLY & FLEXIBLE

- quick and easy replacement - no downtime for repairs
- very minimal heat build-up
- compatible with all major brand handpieces

NEW DIMENSION BRIGHTNESS

- superior luminosity without glare or haloes
- 5500K daylight color temperature
- brightness on-the-spot/ no diffused light
- reflects natural color of dentin and gingiva
- clearer color contrast
- easy on the eyes

ECONOMICAL AND COST-EFFECTIVE

- up to 15 times longer lifespan than conventional halogen light sources
- no need to replace existing couplers
- environment-friendly-made from non-toxic materials
- very little power consumption
